

INSTRUCTIONS FOR SENDING PARTS IN FOR RESTORATION SERVICES

Step 1. Complete the first page of attached form to be included with your shipment. Be sure to completely fill in your name and address information.

Step 2. Carefully pack your part for restoration. Put USM address shown on the bottom of your Restoration Service Order on the outside of your shipment. You may choose to insure your shipment in case of loss or damage in transit.

Tip: Heavy cardboard carton approx. 20"L x 10"W x 10" H. We recommend wrapping dash cluster with bubble wrap or packing paper. Use Styrofoam pieces or bubble paper to cushion dash cluster before putting in carton. Pack some material on top. Dash cluster should not move within box. Close lid, tape sufficiently and address properly to:

Step 3. Complete the second page of the form and mail the form with the parts to USM. Please complete your entire name and address information (including your customer number if you have one). Also complete the payment information section. Ship it fully insured for replacement value (with signature delivery confirmation required and request a tracking number from your shipper) to the following: USM, ATT: DASH SERVICE, 7505 SUIT B-C, CONNELLEY DR., HANOVER, MD 21076

Step 4 Keep a copy of the second page of the form for your records. Record the mailing / shipping date on the form (with a tracking number if sent FedEx or UPS).

Step 5 Remember that reconditioning parts may take anywhere from 2-4 weeks from the time you ship your product to the time it is returned to you, depending on the part you send. Please be aware that reconditioning some parts may require additional components or services not included in the base charge. You will be informed of any additional work and its costs prior to any work being performed.

Note: your vehicle can still operate and function without the instrument cluster installed although without the obvious speed or fuel level information.
